

St Mary's Primary School Dechomet

# St Mary's Primary School Dechomet

## First Aid Policy

This policy was ratified by our Board of Governors on  
23rd June 2015

## **St Mary's Primary School Dechomet**

***OUR VISION :** St Mary's Primary School is committed to providing a happy, caring environment where all are valued and every child matters and where children are prepared for the challenges of education, work and life.*

### **OUR CORE SCHOOL VALUES :**

- 1) Security/Happiness
- 2) Realise Potential
- 3) Life skills/Health
- 4) Respect/Tolerance/Good Behaviour
- 5) Catholic/Christian Values
- 6) Empowerment
- 7) Self-Esteem
- 8) Team, School, Community Spirit
- 9) Equality
- 10) Independence/Courage

**MISSION STATEMENT :** We the Governors and staff of St Mary's Primary School Dechomet are committed to providing the best possible education for all children and to developing each child's full potential.

We aim to work with home and community to :

- ❖ lead all children to a deeper knowledge and understanding of the Catholic Faith and to foster respect for other religions and cultural backgrounds
- ❖ expect the highest standards of achievement through a broad and challenging curriculum
- ❖ create a calm, disciplined and positive atmosphere where praise and reward enhance the children's confidence and self-esteem
- ❖ provide an enriching programme of extra-curricular activities and visits

## First Aid Policy (March 2015)

*This policy is written following the guidelines given in the document 'Guidance on First Aid for Schools' published by the DENI.*

It is the responsibility of St Mary's Primary School to provide adequate and appropriate First Aid to pupils, staff, parents and visitors and to put the procedures in place to meet this responsibility. The policy will be reviewed regularly

### Aims

- To identify the First Aid needs of the school in line with Education Authority (Southern Region) requirements.
- To carry out a school Risk Assessment.
- To ensure that provision is available at all times while people are on school premises, off the premises whilst on school visits
- 

### Objectives

- To appoint the appropriate number of suitably trained people as Appointed Persons and First Aiders to meet the needs of the school.
- To provide relevant training and ensure monitoring of training needs.
- To provide sufficient and appropriate resources and facilities.
- To inform staff and parents via the School Website of First Aid arrangements.
- To complete yellow accident forms and forward to EA as required

### Duties and Responsibilities

The **Governing Body** is responsible for the health and safety of their employees and anyone else on the premises. This includes the Principal and teachers, non-teaching staff, pupils and visitors.

**The Principal** must ensure that a risk assessment of the school is undertaken and that the appointments, training and resources for First Aid arrangements are appropriate and in place. He should ensure that the insurance arrangements provide full cover for claims arising from actions of staff acting within the scope of their employment.

**The Principal and Child Protection Teacher** are responsible for putting the policy into practice and for developing detailed procedures. They should ensure that the policy and information on the school's arrangements for First Aid are communicated to all staff and parents. New staff are to be informed of

## **St Mary's Primary School Dechomet**

procedures as part of their induction programme. The staff notice board displays important first aid details and staff training is given in response to need.

**All staff** are expected to do all they can to secure the welfare of the pupils.

**The Appointed Persons (The principal and the designated teacher for Child Protection) will:**

- Take charge when someone is injured or becomes ill
- Look after the First Aid equipment e.g. restocking the First Aid bags in the allocated places
- Ensure that an ambulance or other professional medical help is summoned when appropriate.

**The First Aider(s)** must have completed a training course approved by the EA, and will be updated every three years. He/She/They will:

- Be contacted to give immediate help to casualties if required during lesson time or break times. Any pupil complaining of illness or who has been injured is to be sent to the school office (accompanied where possible) for the Appointed Person / First Aider to inspect and, where appropriate, treat.
- During breaktimes any pupil complaining of illness or who has been injured will be brought to the staff room and the first aider will be contacted.
- Incidents of a more serious nature are to be recorded in the Accident Book.
- Where possible constant supervision will be provided for poorly or injured children.
- Where the injury or illness requires, or if there is any doubt over the health and welfare of a pupil, parents or carers (as stated on data collection sheet) should be contacted as soon as possible so that the pupil can be collected and taken home.
- If the situation is life threatening or of cause for concern any member of staff can ring 112 and request ambulance help. Should a child be taken to hospital before a parent or carer arrives at the school a member of staff will accompany the child to hospital and parents will be directed to go straight there.
- For their own protection and the protection of the patient, staff administering First Aid will follow necessary precautions.

# St Mary's Primary School Dechomet

## Reporting

- The Principal or Senior Teacher on site will be informed of any serious injury occurring in a day.
- All incidents, injuries, head injuries and treatments are to be reported in the Accident Book kept in the staff room.
- Parents are to be informed of a head injury with the standard bumped head letter.
- Staff should also complete the accident reporting form for employees if they sustain an injury at work.

Where appropriate accidents will be reported to Education Authority using the appropriate form.

1. Involving employees or self employed people working on the premises.
2. Involving pupils and visitors

The Principal is responsible for ensuring this happens.

## Record Keeping

**When dealing with an incident**, the First Aider must ensure that a record is kept of any First Aid treatment given. This should include:

- the date, time and place of incident
- the name (and class) of the injured or ill person
- details of their injury/illness and what first aid was given
- what happened to the person immediately afterwards
- name and signature of the first aider or person dealing with the incident

Accident and First Aid treatment records can be used to help the teaching staff to identify trends and areas for improvement. They also could help to identify training or other needs and may be useful for insurance or investigative purposes.

The Board of Governors are informed of all accidents reported to EA

## **Administration of Drugs and Medicines**

**Medicines should not normally be brought into school, but if necessary, the prescribed medicine (preferably only the daily dose) can be brought to the school office by a parent. It must be clearly labelled with the child's name. A note from the parent detailing the dosage and times when the medicine should be taken must be forwarded to the teacher on duty.**

**Please note that no member of staff is permitted to administer medication. Parents may if they so wish call to the school during the day to administer medication or alternatively, (provided a written note is received) children may administer their own medication under the supervision of a member of staff. All medication taken will be recorded.**

**The school cannot take responsibility for dealing with medicines which are dangerous and where timing is of vital importance. If a child has a serious condition requiring regular medication the pupil will have a medical support plan which clearly details medication required, dosage and storage. It is the sole responsibility of parents to ensure that medicines/pens have not expired!**

## **EPIPENS/J -Tex Pens:**

**No members of staff are currently trained in the use of EPIPENS as no children in the school require this form of treatment. However, the school will undertake to seek training should the need arise.**

## **First Aid boxes**

First Aid Boxes are located in the Staff Room.  
A First Aid Bag will be taken on school trips. Next of kin contacts will also be taken.

## **First Aid Boxes should contain**

- Wrapped sterile adhesive dressings (assorted sizes)
- Sterile eye pads
- Individually wrapped triangular bandages
- Safety pins
- Medium sized ( approximately 12cm x 12cm) and Large sized ( approximately 18cm x 18cm) individually wrapped sterile unmedicated wound dressings
- Disposable gloves
